DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/9/05 has been entered.

2. Applicant's arguments, see last 3 lines of page 6 to last line of page 7, filed 2/9/05, with respect to claims independent claims 1 and 8 have been fully considered and are persuasive. The rejection of claims 1-14, and 16-17 has been withdrawn.

3. Claims 1-14 and 16-17 are allowed.

4. The following is an examiner's statement of reasons for allowance:

In view of applicant's remarks and amendment, the closest cited prior art [Fukuchi] does not teach or suggest the features of "a pixel matrix formation section having a rewritable circuit configuration and having a plurality of lines memories that form a pixel matrix based on pixel data and output the pixel data in parallel" and in combination with other claimed features as recited in independent claims 1 and 8.

Dependent claims 2-7, 9-14, and 16-17 are also allowed for the same reasons as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
